### **Application for support/donations**

To whom it may concern;

Chisuma Foundation is a charity Trustee founded by former Chisuma Primary School students. As demonstrated on our website, the purposes and objectives of The Trust are to promote community development. We aim to inspire young students growing up in the village, at the same time encourage elders and other community members to engage in the development of the local area.

We have identified that communal areas' growth is centred around the central growth point, which is dominated by beer venues and loud music. With great respect for those who engage, this seem to be the only form of entertainment that the young tend to see and endeavour to be part of when they are of mature age. This has resulted with a majority of young people in the village losing their inspirations to make something of their lives. Therefore we aim to provide some other form of entertainment that will provide meaningful and enthrusting entertainment for the young and the community as a whole. We are inviting you and/or your company to join us in organising a Two-Day Sports Extravaganza at the Chisuma grounds. This will include, soccer and netball for all ages.

We seek assistance from all interested stakeholders around the area. A donation of \$100.00 will permit your organisation to display banners at the venue. The funds will be used to organise the events and resources for the two days. We will allocate some funds for a prize for winners in each field.

Thank you in advance for your favourable assessment of our request. We all look forward to a successful weekend of sports for all in the community. Feel free to contact the undersigned with donations or any questions on the above.

Yours Sincerely
